INTELLIGENT LOCKING SYSTEMS

NEXO[®] NLX 1

THE FIRST
WIRELESS REAL TIME
SYSTEM FOR LOCKERS

AESTHETICALLY BRILLIANT,
TECHNOLOGICALLY REVOLUTIONARY.

ALL THE BENEFITS OF AN
ON-LINE LOCKING SYSTEM,
NOW WITHOUT WIRES.

A system that will revolutionise the management of your facilities and locker rooms. Based on the most advanced technology and with the benefits that only Ojmar can provide.

Recess mounted.

INTEGRATION WITH THIRD PARTIES

1. Access control (turnstiles) / 2. SW Spherio[®] / 3. Locker room swimming pool / 4. Locker room fitness / 5. Locker room rental use / 6. Fitness equipment (Technogym[®] & others) / 7. Parking access / 8. Cashless payment system.

DATA MANAGEMENT

OPTIMIZE YOUR INVESTMENT.

The data provided by NEXO[®]NLX1 allows you to know your facility better and makes for a more efficient planning of your current and future facilities.

- Monitoring in real time of locker occupation from PCs, tablets and mobile devices.
- Smart maintenance:
 - Battery status.
 - Lock status.
- Better knowledge of your customers' habits.
- Optimisation of the investment.

COMFORT

NO WIRES.

- Quick installation.
- Minimum maintenance (smart management of battery status).
- Wi-Fi technology.
- Flexibility in locker assignment.
- Indication of the locker status (free/busy).
- Operation in offline mode in the event of a power failure.
- Easy and intuitive to use with sound and visual signals.

SECURITY

NETWORKED ALARM.

- Visual and acoustic alarm in both central PC and in door.
- Any attempt to force a locker will activate an alarm in the locker itself and a warning in real time in the system and will send security staff to the location where the alarm was activated.
- Double Wi-Fi security: Wi-Fi WPA2 + encryption.
- Immediate cancellation of credentials.
